Covert Camera & Recorder

Movement Triggers Still Photos

Hidden Still Camera & Recorder in an Imitation Alarm Sensor

Being a "fly on a wall" no longer requires multiple components or tricky wiring. With the new generation Covert Camera & Recorder (Digital Private Eye) video camera and time-lapse recorder with motion trigger from Swann you can install greater peace of mind for a fraction of the cost. Whether it's for the office, your home, the baby's nursery, the warehouse, whatever you want to monitor the Covert Camera & Recorder records multiple images for added security and ultimate control.

Position the camera at your front door or hallway, then simply plug in your SD Memory Card (includes 128MB), power cable or 9V battery (not included) then watch the camera go to work! The 128MB SD Memory Card stores over 2,000 images or upgrade to a 1GB Card to store up to 30,000 images.
